

# Testauspäivä 2012 - Akvaariokeskustelu

TuulaP/06-June-2012

# Perusasetelma

Aina yksi  
tyhjä tuoli

Moderaattoria ei  
edes näy – hän  
tarkkailee tilannetta  
taustalla

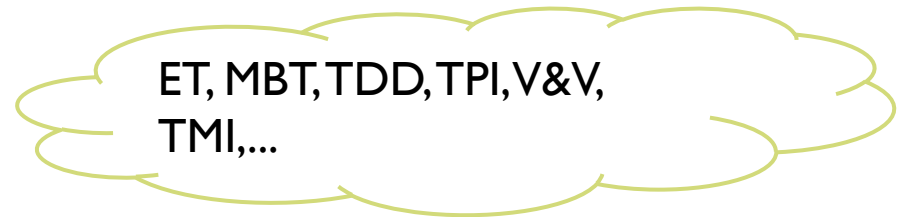

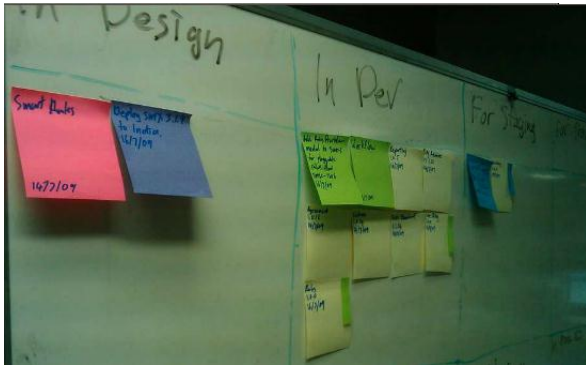

Sisäkehä,  
"akvaario",  
jossa  
keskustellaan

Ulkokehä,  
jossa  
seurataan  
hiljaa  
keskustelua

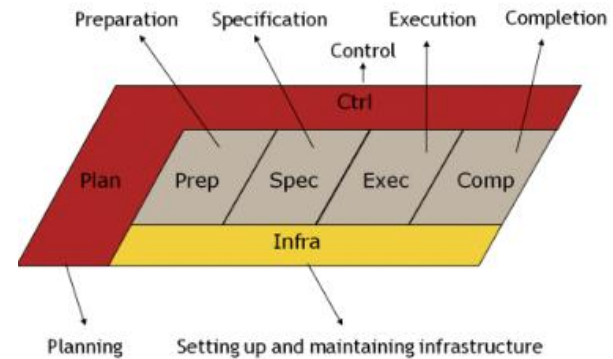

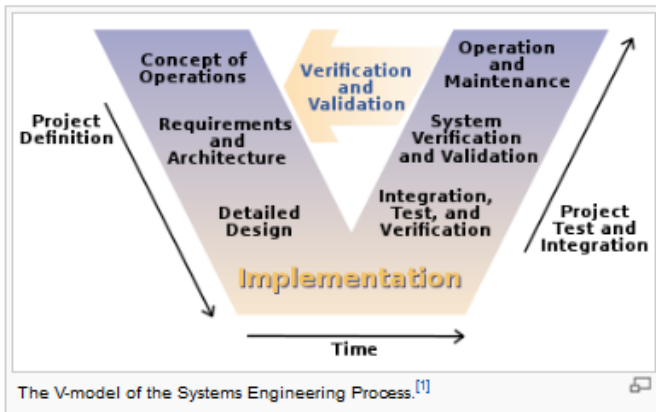

# **Akvaariokeskustelu testauksen eri lähestymistavoista**

# Testauksen eri lähestymistapoja

Who, what, when, where, why?

# Testauksen eri lähestymistapoja

---

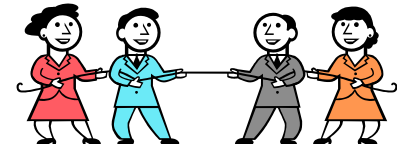

*Ne errottevat toisistaan, vo  
ne myös muuttuvat.  
Alueen maantieteellinen.*

# Yhteenveto – Summary of Fishbowl

---

- ▶ 4 people entered Fishbowl, 15 people "were put to production" and 3 in bowl at the end .Thanks all!
- ▶ Testing is an investment!
  - ▶ What is the added value you get
  - ▶ Examples: Provide vital information, bug reports, quality
  - ▶ Verification vs validation measure different things
- ▶ Lots of quality attributes -- 1% vs. 99%
  - ▶ Team learns, team can solve together
  - ▶ Testing is "tug-of-war"
  - ▶ Testing is part of business operations: product sales => \$ that pays also testers' salaries.

---

▶ Summary added (07-Jun-2012)

# Yhteenveto – Summary of fishbowl (2)

---

- ▶ ”Exploratory testing is the only right way”
- ▶ Analogy testing to ”blueberry picking trip”
  - ▶ Do you need to see your track?
  - ▶ You need to be able to show how to repeat the bug
  - ▶ ”Joy report” of things that delight testers
  - ▶ Repeatability ; test automation
- ▶ **EVERYTHING IS ABOUT COMMUNICATION**

---

▶ Summary added (07-Jun-2012)

# In Twitter
