Objections: None
Abstentions: None
Discussion: None
Motion: Approved

2017-57: ISO/TC215 resolves to Approve under Vienna Agreement (ISO lead) to add ISO/IS 27789:2013 Audit trails for electronic health records for revision to the WG4 work program target date 36 months; the same scope; project lead: Mr Hideyuki Miyohara.
Objections: None
Abstentions: None
Discussion: Canada: Ensure harmonization between others standards. US: Include 10781 Electronic Health Record-System Functional Model and 13606 Electronic Health Record Communication Part 4. It was agreed that this is important to identify other standards that need to be harmonized. WG4 was commended for this. TC215 needs to continue to look at this type of harmonization. The CAG02 will be a good place to review the maintenance of standards as new ones are proposed.
Motion: Approved

2017-58: ISO/TC215, instructs the TC 215 Secretary to request DICOM to initiate a Change Proposal that will add to their DICOM Standard the following:
- Add into DICOM Part 15 PatientRecord Event Message 2 items:
  - PurposeOfUse and
  - ParticipantObjectPolicySet
- Add into DICOM Part 15 Query Event Message allowance to use UUID
- Add to DICOM Part 16 a new PurposeOfUse definition into the Content Mapping Resource that corresponds to ISO 14265 Classification of purposes for processing personal health information So that ISO 12052 can be revised.
Objections: None
Abstentions: None
Discussion: WG4: IHE refers to part 15 and part 16 of the DICOM standards and these is the implementation issue that needs to be addressed. Australia: Support for this coordination and harmonization to keep standards in sync is very important. This is also important from a JIC perspective.
Motion: Approved
Withdrawn: 2017-50: ISO/TC215 resolves to Approve to add ISO/TS 14441 Security and privacy requirements for compliance testing of EHR systems -- Part 1: Foundation, for revision to the WG4 work program; target date 36 months; the same scope; project lead: Marcelo Carvalho.

Abstentions: None
Discussion: None
Motion: Approved

Resolutions WG6: Pharmacy & Medicines Business

Objections: None
Abstentions: None
Discussion: None
Motion: Approved

Objections: None
Abstentions: None
Discussion: None
Motion: Approved

2017-63: ISO/TC215 resolves to Approve to revise ISO/TS 16971 Requirements for international machine-readable coding of medicinal product package identifiers, keeping the same scope, with Mr Christian Hay as project leader and a target date 24 months.

Objections: None
Abstentions: None
Discussion: None
Motion: Approved

2017-64: ISO/TC215 resolves to Approve the registration as the Preliminary Work Item for ISO to target as a TS Implementation guide for ISO/TS 19256 Requirements for medicinal product dictionary systems for health care.

Objections: None
Abstentions: United Kingdom
Discussion: Edited the wording to clarify this work item is added to the work program only, not added as a DTS.
Motion: Approved
2017-65: ISO/TC215 resolves to Approve the following amended scope statement of WG6 as followed: 
Standardisation related to the application of information and communication technology in the domain of pharmacy and medication. This includes standardisation to improve patient safety and the efficiency and interoperability of information systems such as those used in researching, developing, regulating, supplying, prescribing, dispensing, administering and monitoring medicinal and pharmaceutical products, and documentation supporting implementation.
Objections: None
Abstentions: None
Discussion: Edited the wording from the initial submission to ensure the scope in not opened ended.
Ended the sentence after medication and added “This includes... such as those....”
Motion: Approved

Objections: None
Abstentions: None
Discussion: None
Motion: Approved
